## **MISSION ROAD WIDENING BEGINS IN JUNE**

***Project Will Widen Road, Improve Parking, Build Sidewalks and Curbs/Gutters***

Construction on Mission Road improvements begins next month in Fallbrook. This includes widening the road from three to five lanes between Pepper Tree Lane and Clemmens Lane.

The \$6 million project also adds on-street parking on portions of the east side of the road. Other improvements include installation of curbs, gutters, sidewalks and bike route signs on both sides of Mission Road, drainage improvements, reconstruction of key intersections in the area and utility under grounding.

Mission Road will remain open to traffic and businesses will remain accessible during construction. Construction should take about 12 months to complete.
